

CANDIDATE INFORMATION PACK

The Discovery Programme, Centre for Archaeology and Innovation Ireland is committed to a policy of equal opportunity.

Collections Manager (Part-Time)

The Discovery Programme: Centre for Archaeology Innovation Ireland is seeking to fill the post of Collections Manager Officer.

Nature of Employment:	This is a part-time (0.6 Full Time Equivalent (FTE)) fixed term and fixed purpose appointment for up to 36 months (subject to successful completion of a six-month probationary period).
Salary:	In the region of €21,679.20 – €25,453.20 per annum (that is, 0.6 of an FTE salary at Point 3 – Point 5 Archaeologist Scale 65175(3), with annual increments, pro rata, on that scale on satisfactory performance in post)
Current Location:	Merchants House, Merchants Quay, D08 K3KD, Ireland. Company Reg. No. (CRO): 243328 Reg. Charity No. (RCN): 20036973 Charity Revenue No. (CHY): 12549.
Reporting to:	Chief Executive Officer or their nominee
Expected employment start date:	Preferably no later than 16 November 2022

Supported By

An Chomhairle Oidhreachta
The Heritage Council

General

The Discovery Programme (a company limited by guarantee) is a publicly funded institution for advanced research in the archaeology of the island of Ireland. It engages in archaeological and related research, to benefit the community by deepening our understanding of Ireland's past. Collections Manager is central to the work of the Discovery Programme in ensuring the results of its research is properly processed, archived and available to scholars and the general public.

The mission of the Discovery Programme is to enhance the understanding of Ireland's past through archaeological and related research, establish research programmes, promote this research and the appreciation of Ireland's archaeological heritage and to co-operate with other all-island and international archaeological bodies. We are working to support the research community, providing research leadership and supporting strategic policy development and evidence-based decision-making.

The successful candidate will have a lead role in the management of the Discovery Programme's collections of archaeological objects including ecofacts such as animal bone, soil samples and similar material. These collections arise from past and ongoing research, survey and excavations. The primary focus of activities for the Collections Manager will be processing assemblages from past excavation and field projects involving finds retrieval. These collections are yet to be deposited in the National Collections or other location as appropriate. They include:

- The Medieval Rural Settlement Project
- The Lake Settlement Project
- Other smaller-scale projects

Key Tasks and Deliverables

The successful candidate will be responsible for establishing a work schedule for bringing the current assemblages of artefacts, ecofacts and processed sample residues held by the Discovery Programme to a standard whereby they may be accessioned by the National Museum of Ireland or another suitable repository or location by agreement with the National Museum of Ireland.

The Collections Manager will also have a key role in supporting the wider dissemination of information about the Discovery Programme's digital collections, including progression of publications relating to the Discovery Programme's research.

It is anticipated that this work will require close collaboration within the Discovery Programme team currently working variously on projects, archives management and administration. The successful candidate will be required to:

1. Complete an initial phase of work to review and catalogue existing records.

2. Produce a catalogue of all licences (for example, to excavate; to alter or to export archaeological objects; metal detecting consents etc.) issued in respect of works undertaken under the auspices of the Discovery Programme.
3. Propose a work plan, in agreement with the Board of the Discovery Programme and in liaison with the National Museum of Ireland for the accessioning of the Discovery Programme's assemblages in accordance with the National Museum of Ireland's standards, which may include:
 - a. A further exercise to document and describe the work necessary to bring the assemblages to accession standards; and
 - b. An outline of timescales and prioritised actions needed to bring the assemblages to accession standards.
4. Implement the agreed workplan and progress to deposition in an appropriate repository or location.

It is anticipated that Collections Manager will fully familiarise themselves with the requirements and standards of the National Museum of Ireland for the deposition of archaeological objects to the National Collections. These can be accessed here:

<https://www.museum.ie/en-IE/Collections-Research/Irish-Antiquities-Division-Collections/Licensing-and-Services-for-Professional-Archaeolog>

All the actions listed below should be in compliance with the documentation templates, labelling, boxing, packing and other collections requirements of the National Museum of Ireland, as outlined in the Standards documents in the above link. The necessary work may include but is not limited to:

- Establishing what physical resources are required to appropriately pack or re-pack the constituent elements of the assemblage, and how these may be sourced and procured.
- Creating an inventory and packing list for non-metal objects and label boxes appropriately.
- Creating descriptions of metal objects where none already exists.
- Creating an inventory and packing list of metal objects and label boxes appropriately.
- Investigate the requirement for retention or disposal on the part of the National Museum of Ireland in specific instances, for example relating to the retention or disposal of assemblages of animal bone; metal slag and other residues; wood; stone; ecofacts and samples and then carry out the appropriate actions.
- Ensuring that accessible and appropriate collections catalogues are drafted or updated and retained in both hard and digital copy.
- Liaise with contract archaeological conservators and/or the Conservation Department of the National Museum of Ireland where further treatment and advice may be required.
- Facilitate inspection by NMI curatorial and conservation staff prior to deposition of collections at the Collections Resource Centre, National Museum of Ireland.

The scope of work will require close liaison with statutory and regulatory bodies, present and past employees of the Discovery Programme and other academic institutions, primarily those based and working in Ireland.

The work of this post should be conducted in accordance with the **Collections Disposal Policy** of the Discovery Programme, which is that all proposals will be in compliance with the Collections Disposal Policy of the National Museum of Ireland for archaeological and other objects recorded in the course of its work across the island of Ireland. The National Museum of Ireland's *Collections Disposal Policy* can be accessed here:

[Collections Disposal Policy - National Museum of Ireland](#)

Any proposals for disposal of archaeological objects of any type or date, must be by agreement with the National Museum of Ireland on a case-by-case basis with the knowledge and approval of the CEO, and where appropriate the Board of the Discovery Programme.

Role and Responsibilities

The successful candidate will help set the standard for collections management activities in the Discovery Programme. They will be required to:

- 1 Give advice on and lead in best practice for the organisation in the areas of collections management, training and other programmes within the organisation about collections management.
- 2 Work closely with the Discovery Programme's Archivist to ensure the appropriate compilation, maintenance and deposition of records associated with research activities including archaeological excavations.
- 3 Make arrangements for the transfer of collections to the National Museum of Ireland, or any other suitable location as agreed with the National Museum of Ireland and advising on and implementing work to be done in the preparation of collections for transfer.
- 4 Arrange, list and pack collections and records; create appropriate databases and knowledge access in accordance with accepted international and institutional standards for use by colleagues, researchers and the public, including future researchers involved in Discovery Programme projects.
- 5 Participate as appropriate in education and outreach activities, including giving presentations and participating in the compilation of exhibitions and publications concerning the work of the Discovery Programme.
- 6 Assist in processing requests for access to and use of records or collections held by or formed by the Discovery Programme.
- 7 Liaise with and, where appropriate, train of other staff engaged in duties relating to any of the activities described above.
- 8 Assist in the procurement of contracts for services and supplies in relation to ongoing collections management, depositions, and monitoring the performance and outcome of contracts.

- 9 Support the progression of Discovery Programme publications and outreach activities, including liaison with the Communications and Outreach Officer and participate in public talks, presentations and workshops.
- 10 Answer correspondence, attending meetings, writing reports, assist in the compilation of the Discovery Programme's Annual Report and, where requested, present to the Board of the Discovery Programme concerning the functions and activities referred to above.
- 11 Conduct any other duties as may be assigned by the Chief Executive Officer or their nominee as appropriate to this post.

The post holder will be expected to conduct their duties to assist in the progression and delivery of the overall objectives of the Discovery Programme, within time and budgetary constraints. This will include representing the Discovery Programme at meetings and events around Ireland, and occasionally attending meetings and events outside of Ireland. From time to time the post-holder may be required to work additional hours as may be reasonable and necessary for the proper performance of their duties, subject to the limits set down in statute and the flexible working arrangements of the Discovery Programme Staff Handbook.

The postholder will be responsible for the management of the agreed budget allocated to collections management activities within the Discovery Programme.

The Discovery Programme operates a Performance Management Development System that outlines key objectives and personal development for staff, and as a means of recording performance across the annual reporting cycle.

The Person

The Discovery Programme is seeking an individual who is highly motivated, focused upon results while at the same time respecting and following instruction and processes that relate to their work. We are looking for someone who has:

- Excellent written and verbal communication skills.
- Strong organisation and time management skills.
- Sound academic and professional knowledge of archaeology, especially:
 - archaeology found on the island of Ireland
 - management of archaeological collections, especially artefactual collections and the records associated with those collections.
- Demonstrated successful archaeological project completion.
- Accuracy and attention to detail essential.
- Strong interpersonal skills and ability to work well with others.
- Ability to prioritise workload.
- Flexibility and adaptability in the context of remote working arrangements.

Selection Criteria

Applicants should note that they should clearly set out in their application how they satisfy the criteria outlined below. For guidance, applicants should be aware of the following definitions of essential and desirable:

Essential Criteria – requirements without which a candidate would not be able to undertake the full remit of the role. Applicants who have not clearly demonstrated in their application that they possess the essential requirements will normally be rejected at Stage 2 of the selection process outlined above.

Desirable Criteria – requirements which would be useful for the candidate to hold, and which are highly relevant to the post. These criteria will be considered for short-listing candidates when more than one applicant meets the essential requirements.

Further Desirable Criteria – requirements which would be useful for the candidate to hold, and which may be used in order that the competition may be progressed in a timely manner should a significant number of candidates meet the first shortlisting criteria.

Essential Criteria:

Applicants must, by the closing date for applications, have:

EC1 At least an honours degree (Irish National Framework of Qualifications Level 8) in archaeology or a closely related discipline that is relevant to the role (level 6 qualification (Bachelor Degree) as recognized by the European Qualifications Framework*):

AND

EC2 At least two years' professional research and fieldwork experience** gained within the last 15 years, to include both of the areas of essential experience outlined at Table 1 below.

*It is for the applicant to demonstrate that their qualification is in a discipline closely related to archaeology, and that any further qualification held is industry-recognised in the Ireland or the United Kingdom. If you believe your qualification is relevant or equivalent to the one required, the onus is on you to provide the panel with details of modules studied and relevancy to the post so that a well-informed decision can be made.

**Types of experience may be combined to achieve the required two years

Table 1 - Essential Experience

A. At least six months experience of post-excavation processing and archiving of materials and artefacts arising from archaeological excavations in Ireland.
B. Demonstrable experience of successful completion of cataloguing, reporting, publishing and/or wider dissemination of the results of archaeological research.

Desirable Criteria/Shortlisting Criteria

Where shortlisting of candidates is required, applicants should, in addition to meeting the Essential Criteria set out above, have:

SC1 A Masters Degree (National Framework for Qualifications Level 9; European Qualifications Framework Level 7) in archaeology or a discipline closely related* to archaeology or relevant to the role

OR

SC2 At least three years post-graduate professional research and fieldwork experience** gained within the last 15 years to include both of the areas of essential experience outlined at Table 1 above.

*It is for the applicant to demonstrate that their qualification is in a discipline closely related to archaeology, and that any further qualification held is industry-recognised in the Ireland or the United Kingdom. If you believe your qualification is relevant or equivalent to the one required, the onus is on you to provide the panel with details of modules studied and relevancy to the post so that a well-informed decision can be made.

**Types of experience may be combined to achieve the required three years

Further Desirable Criteria/Shortlisting Criteria

Where further shortlisting is required, SC1 and SC2 will be used, that is, a higher qualification standard **and** length of experience.

Eligibility to compete and certain restrictions on eligibility

Appointment to this role is subject to the candidate's eligibility to work in Ireland. It will be for the successful candidate to demonstrate that they are permitted to work in Ireland or will be permitted to work in Ireland on or before **16 November 2022**.

How to Apply

Applications must be made by submitting an email, with the title of the position entered into the subject field of the email, to info@discoveryprogramme.ie no later than **12 noon on Friday 09 September 2022**.

Attached to that email, applicants must include Application Form COM_2022_004, along with:

- A short cover letter / personal statement, no more than 500 words 12pt single spaced text, outlining why you wish to be considered for this post and why you believe your skills, experience and values meet the requirements of the position.
- A comprehensive CV detailed as relevant to the position but to be no more than three pages in length. The first page of the CV should include a summary biography.

NB: Please ensure that your CV does not include any personal information that is not relevant to the post being applied for.

- Completion of the information fields set out on the application form

Please note:

- You should ensure that you provide evidence of your experience in your application form, giving length of experience, examples and dates as required
- It is not sufficient to simply list your duties and responsibilities
- The Assessment Panel will not make assumptions from the title of an applicant's post or the organisation where they are employed as to the skills and experience gained
- If you do not provide sufficient detail the Assessment Panel will reject your application

Certified proof of qualifications and eligibility to work in Ireland will be sought prior to interviews and **should not** be included with your application.

Effective date of appointment

It is envisaged that the successful applicant will take up the role no later than **Wednesday 16 November 2022**.

Privacy notice (GDPR)

In accordance with the General Data Protection Regulations (GDPR) any personal information which you provide to us will be treated in confidence and in accordance with the Data Protection Acts 1988-2018. Documentation (digital and hard copy) relating to unsuccessful applications other than those that may be retained on a short list will be destroyed after six months from closing date of applications. For those on the short list this data will be destroyed after one year after completion of interviews.

Application and Selection Process

Candidates will be required to demonstrate through their application that they:

- fulfil the key criteria identified for this post, including qualifications and experience;
- that they have the key competencies required for this post;
- have the ability to successfully undertake the duties outlined for this post.

Stage 1 – submission of applications and preliminary review

Applications must be received prior to the closing date and time stated, that is **12 noon on Friday 09 September 2022**.

All applicants will receive email confirmation that their application has been received. Applications received after the stated deadline will not proceed to preliminary review. All valid applications will be subject to a preliminary review by an Assessment Panel. Incomplete applications received will not be considered further. Applicants who have submitted incomplete applications will be notified of such.

Stage 2 – evaluation of applications

Completed applications will be evaluated by the Assessment Panel. A successful candidate **may** be appointed on the basis of their written application. Where one or more candidates appear suitable for the post the Assessment Panel will call these for interview.

All applicants will be notified of the outcome of Stage 2.

Stage 3 – call to interview

The invitation to interview is not to be taken as implying that the Assessment Panel is satisfied that such a person fulfils all of the requirements for the post.

The Assessment Panel will seek to give a minimum of one weeks' notice of the date and time of interview for any candidate called to interview. Arrangements for interviews will depend upon government guidelines and the wider COVID-19 restrictions in place at that time. Any in-person interviews will be held in central Dublin. However, it may be necessary for the interviews to be held remotely via Zoom.

Please note that the Discovery Programme will not be responsible for refunding any expenses incurred by candidates incurred as part of the interview process. Reschedule requests may only be considered under exceptional circumstances as deemed acceptable by

the Assessment Panel (such as bereavement, or illness that would otherwise prevent the candidate from attending the workplace). Please note that supporting information from the candidate may be required where such a reschedule request is made. Only one reschedule request will normally be considered. Rescheduled dates will normally be within two weeks of the original scheduled date.

It is planned that interviews will be held in the week commencing either Monday 19 September or Monday 26 September 2022.

Shortlisting for interview may be conducted using the criteria set out in this information pack.

Stage 4 – interview

Where interviews are held the Assessment Panel will use a competency-based approach using the Public Appointments Service Civil Service Competency Models for reference.

These can be accessed online at:

https://publicjobs.ie/documents/PAS_CS_Competency_Models_2017.pdf

In addition to the professional competencies and qualifications set out at *Essential Criteria* below, candidates' attention is drawn in particular to the competencies outlined for Executive Officer grade.

Further detail around core competencies is provided below.

Candidates called to interview will be scored against a common matrix and placed in order of merit (highest scoring first). Candidates will be expected to meet a minimum score threshold of 60% overall, and to achieve at least 50% of the marks available for each competency tested at interview.

Stage 5 – notification of outcome of Stage 4

All candidates called to interview will be notified of the outcome. Notification will be to advise whether or not they have passed the interview. Where a candidate has not passed the interview, they will receive feedback from the Assessment Panel.

The successful candidate will normally be the person who has scored highest at interview. However, prior to any offer of appointment the Discovery Programme will make all such enquiries that are deemed necessary (e.g., health, character, employer references and security checks). The successful candidate will not be appointed to the post unless they:

- Agree to undertake the duties outlines and accept the conditions under which the duties are or may be required to be performed;

- Are fully competent and available to undertake, and fully capable of undertaking, the duties attached to the post.

In the event that a second round of interviews is required, candidates may be required to make a presentation as part of that interview. Where a presentation is required, candidates will be informed of the presentation topic when interview times are being assigned.

Stage 6 – appointment

Once all necessary checks have been completed, an offer of employment will be made to the successful candidate.

The successful candidate will be expected to take up employment with the Discovery Programme no later than **16 November 2022**.

Details of candidates who have passed the interview will be retained on an order of merit list for one year as suitable for appointment and may be offered employment by the Discovery Programme should any similar vacancy arise in that time. This is without prejudice to any other recruitment undertaken by the Discovery Programme while any such list exists.

The principal Conditions of Service are outlined at Appendix 5.

Additional Information about the work of the Discovery Programme

Further detail about the work of the organisation may be found on our website:

www.discoveryprogramme.ie

Further detail about the CHERISH Project may be found here:

www.cherishproject.eu/en/

Other projects currently under way or in early development stage:

TII ALS Machine Learning Project

The project is a 2 year funded project under the TII Research Call in 2021 and is being led by the Discovery Programme in partnership with Remote Sensing Centre, Research Centre of the Slovenian Academy of Sciences and Arts (ZRC SAZU) (<https://iaps.zrc-sazu.si/en>) and Bias Variance Labs (<https://www.bvlabs.ai/>).

The research project aims to develop a user-friendly software tool capable of automatically detecting archaeological features from LiDAR data using machine learning, specifically deep learning algorithms. This will include the development of a 'trained' machine learning model that can automatically detect three classes of earthwork monuments from LiDAR data. The software tool will initially be designed for TII staff and to archaeological consultants appointed to TII projects and subsequently be made more widely available as free and opensource software to provide opportunities for future collaboration and development.

ARIADNEplus Project (<https://ariadne-infrastructure.eu/>)

The ARIADNEplus project is a four-year extension of the previous EU Funded ARIADNE Integrating Activity, which successfully integrated archaeological data infrastructures in Europe, indexing in its registry of about 2,000,000 datasets. ARIADNEplus builds on the ARIADNE results, extending and supporting the research community that the previous project created and further developing the relationships with key stakeholders such as the most important European archaeological associations, researchers, heritage professionals, national heritage agencies and so on. The new enlarged partnership of ARIADNEplus covers all of Europe. It now includes leaders in different archaeological domains like palaeoanthropology, bioarchaeology and environmental archaeology as well as other sectors of archaeological sciences, including all periods of human presence from the appearance of hominids to present times.

The technology underlying the project is state-of-art. The ARIADNEplus data infrastructure is embedded in a cloud that will offer the availability of Virtual Research Environments where data-based archaeological research may be carried out. The project is developing a Linked

Data approach to data discovery. Innovative services are being made available to users, such as visualization, annotation, text mining and geo-temporal data management. Innovative pilots are being developed to test and demonstrate the innovation potential of the ARIADNEplus approach.

Discovery Programme Legacy Projects

The Discovery Programme is currently working towards the completion of key elements of a number of projects undertaken over the past 25 years, including work on:

- The Medieval Rural Settlement Project
- The Lake Settlement Project
- Tara

Further details on these projects can be accessed via our website. Current and planned activities are being progressed as resources permit.

A number of new projects are also under development at this time, and further detail may be provided on our website as new projects progress.

Key Competencies

<p>Management and Teamwork</p> <p>Create, maintain and enhance effective working relationships Encourages and supports new and more effective ways of working Encourages, listens to and acts on feedback from the team to make improvements Actively shares information, knowledge and expertise to help the team meet its objectives</p>
<p>Technical Analysis and Decision Making</p> <p>Effectively deals with a wide range of information sources, investigating all relevant issues Understands the practical implication of information in relation to the broader context in which s/he works Correctly extracts and interprets numerical information, key technical data and relevant statistical data Can provide succinct, engaging and accurate briefings for the Board, colleagues and for wider stakeholder engagement Quickly gets up to speed in a complex situation, rapidly absorbing all relevant information/data (written and oral) Is resourceful and creative, generating original approaches when solving problems and making decisions</p>
<p>Delivery of Results</p> <p>Assumes personal responsibility for and delivers on agreed objectives/goals Manages and progresses multiple work strands and activities successfully Accurately estimates time parameters for projects and manages own time efficiently, anticipating obstacles and making contingencies to manage these Is logical and pragmatic in approach, delivering the best possible results with the resources available Maintains a strong focus of delivery of agreed outcomes at all times Ensures all outputs are delivered to a high standard and in an efficient manner Uses resources effectively</p>
<p>Interpersonal and Communication Skills</p> <p>Communicates in a fluent, logical, clear, concise and convincing manner, verbally and in writing Is able to listen effectively and develop a two-way dialogue quickly Effectively influences others to take action Builds and maintains contact with colleagues and stakeholders to assist in performing role Works to establish mutual understanding to allow for collaborative working Collaborates and supports colleagues to achieve organizational goals</p>
<p>Specialist and Technical Knowledge, Skills and Self Development</p> <p>Clearly understanding the role, objectives and targets, and how they fit into the work of the Discovery Programme Has significant expertise in their field that is recognised and utilised by colleagues Is proactive in keeping up to date on issues and key developments that may impact upon their own work area and that of the Discovery Programme</p>
<p>Drive and Commitment to the Discovery Programme's Code of Conduct</p> <p>Consistently strives to perform at a high level Demonstrates high levels of initiative, taking ownership for projects within the management and organizational parameters of the Discovery Programme Is trustworthy, upholding highest standards of honesty, professionalism, ethics and integrity</p>

Appendix 4

Interview Guidance for Applicants

If you are called to interview, the Assessment Panel will want to give you the opportunity to further demonstrate your suitability for the post. Interviews can be stressful – even for the Assessment Panel – and you should be assured that you will be treated with professionalism, courtesy and understanding. Interviews will have time limits, and the Assessment Panel will guide you if you are coming close to the time limit for one section or another. But take your time, listen carefully to the question, and if you need the question to be repeated just ask!

If this is your first experience of a competence-based interview, bear in mind that it requires you to:

- Focus exclusively, in your responses, on your ability to fulfil the competences required for effective performance in the role; and
- Provide specific examples of your experience in relation to the required competence areas.

A competence-based interview does not require you to:

- Talk through previous jobs or appointments from start to finish;
- Provide generalised information as to your background and experience; or
- Provide information that is not specifically relevant to the competence the question is designed to test.

In preparation for the interview, you may wish to think about having a clear structure for each of your examples, such as:

Situation – briefly outline the situation;

Task – what was your objective, what were you trying to achieve;

Action – what did you actually do, what was your unique contribution;

Result – what happened, what was the outcome, what did you learn.

The panel will ask you to provide specific examples from your past experience in relation to each of the competences. You should therefore come to the interview prepared to discuss in detail a range of examples which best illustrate your skills and abilities in each competence area outlined at Appendix 2 above. You may draw examples from any area of your work / life experiences.

Appendix 5

Principal Conditions of Service

Nature of Employment:	This is a part-time (0.6 Full Time Equivalent) fixed-term appointment for 36 months, subject to the satisfactory completion of a six-month probationary period and continued good conduct in post.
Salary:	In the region of at €21,679.20 - €25,453.20 per annum (that is, 0.6 of a FTE salary, Point 3 – Point 5 Archivist Scale 65180, with annual increments on that scale on satisfactory performance in post)
Place of Work:	Merchants House, Merchants Quay, D08 K3KD, Ireland.
Reporting to:	Chief Executive Officer or their nominee
Hours of Work and Rest:	As provided for under the Organisation of Working Time Act 1997 Normal hours of work are full time, 37.5 hours per week, Monday to Friday, excluding lunch breaks, normally to be worked as agreed between the hours of 08:00 and 18:00. The Discovery Programme operates a flexi-time policy. From time to time the post holder will be expected to work outside normal working hours subject to the limits set down in the working time regulations.
Holidays:	In addition to usual public holidays the annual leave entitlement is 25 days per calendar year
Pension:	The Discovery Programme (Employer) Pension contribution is on a matching basis from 1% up to a maximum of 5% of salary; the employee may make a greater contribution to their salary, with employer contribution capped at 5%.
Other Information:	While this is an office-based post, applicants should note that from time-to-time field visits to sites of archaeological interest or research may be required. This may include visits to institutions, located in centres of population, as well as sites located in the countryside, mountain tops and foreshore, including sites in various states or repair or disrepair, subject to archaeological excavation and/or in conservation or construction phases. Travelling and subsistence expenses are paid according to the rates set by the Discovery Programme.

NB: Place of Work - Remote working arrangements are currently operating which were developed due to restrictions under the COVID-19 pandemic; flexible working arrangements will be considered, including a blend of office-based and remote working as COVID-19 measures permit. The post holder will be expected to spend at least 50% of their time in office-based activity. From time to time the post holder will be required to work at different locations to facilitate meetings and engagement with stakeholders.

Please note, successful candidates may request blended working arrangements, this will be considered on a case-by-case basis in line with the business needs of the organisation, and in accordance with the Discovery Programme's Staff handbook. The Discovery Programme reserves the right, at its discretion, to change working arrangements on any future date.
